

How Efficient is Your Order Process?

Do your customers email and fax their orders to your customer service or inside sales team that have to be manually keyed into your order entry system? Pretty inefficient, costly, and error-prone isn't it?

Sales order automation software will seamlessly transform inbound emailed and faxed purchase orders into electronic sales orders that can be automatically processed into your ERP system with 100% accuracy.

Visit conexiom.com to learn how Conexiom® can help you focus on serving customers, not entering orders.
